

The Essence of Natural Rock

Cobblestone Face

Redi-Rock is proud to offer one of the only natural rock-look retaining wall blocks

Columns and Pavers

Redi-Rock offers stonehenge columns and quarried pavers to complete every project you design. In addition to retaining walls, free standing walls, and planters, columns and pavers can be integrated into your Redi-Rock design. Stonehenge columns add a unique look to your driveway, patio, sidewalk or any other place you desire. The quarried pavers can be used as patios and porches, driveways and sidewalks and in water features. The essence of natural rock in Redi-Rock columns and pavers is a classy and beautiful solution to your every design need.

Wilbert. PRECAST, INC.

FOUR GENERATIONS SINCE 1906

We have been manufacturing precast concrete for over 100 years. What started in 1906 as a local business making cemetery burial vaults has grown to a regional supplier of a wide range of precast concrete products.

The Redi-Rock retaining walls, freestanding walls, pavers and columns are just some of the many precast concrete products that we provide. Please see our catalog or visit us on the web for more information.

"NATURAL ROCK" COLUMNS AND PAVERS....

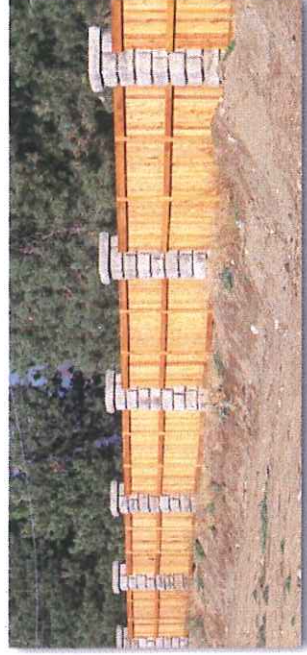

Stonehenge Columns

Redi-Rock stonehenge columns add a unique and classy appeal to driveways, patios, property lines, gate entrances, estate enhancement, creative and attractive signs, mailbox posts and security applications.

Stonehenge columns easily accept light fixtures or gates to fit your every design need. With no maintenance required, durability to last a lifetime, and the ability to move, Redi-Rock stonehenge columns are perfect for any project.

Fast, Easy Installation

Two installers and a piece of equipment - a small excavator, skidsteer, or backhoe - require less manual labor and effort than hand laying blocks and pavers.

Stonehenge column blocks can be designed to fit into any project. With the ability to make columns up to 6 feet, Redi-Rock columns are perfect for fences. Quarried pavers are massive in size, up to 24 square feet, and can be used for a variety of design solutions. Strength reinforcement and a tongue and groove system make pavers ideal for any project.

Block Specifications

Column Block

2' x 2' x 18" - 775 lbs

Paver

6' x 4' x 4" - 1200 lbs
4' x 4' x 4" - 800 lbs

Customize Your Project

The Redi-Rock system of products allows for creativity to meet your every design need. Redi-Rock products have the essence of natural rock, combined with durability, functionality and beauty. Multiple products can be combined to create a cohesive and classy look. Also, your Redi-Rock project can be perfected with an easy color treatment application to fit your design needs.

Quarried Pavers

Redi-Rock quarried pavers create beautiful hardscapes such as patios and porches, driveways and sidewalks, ponds and waterfalls. If you are searching for a paver with a natural rock look that integrates into the landscape, look no further!

Quarried pavers are massive in size and have an appearance of hewn stone. Unlike traditional pavers, Redi-Rock pavers will not heave or deform over time. Each wet-cast unit resists freeze-thaw cycles, moisture and the elements. With a 3-dimensional look, unlimited colors and the ability to finish up to five surfaces, Redi-Rock pavers are adaptable to any design!

The New Generation in Columns and Pavers
