PRECAST GARDEN BEDS

1.800.888.4573
wilbertprecast.com

Precast Garden Beds are designed using, eco-friendly and durable precast concrete, which can last over 100 years. Each bed is more than capable of withstanding all weather extremes and will not rot, crack, peel, rust or splinter, all the while looking good through the year.

Our beds are a beautiful addition to an outdoor space or your garden, with the look of real wood and ability to stain it in various colors after placed. Each bed is 4' x 8' x 2' and comes with holes for future greenhouse installation.

Raised Garden Beds allow for more accessibility around your garden without kneeling. Weed control, pest control and drainage are easier to manage. Since the bed is made with precast concrete the heat from the sun warms the soil resulting higher yields.

To learn more about Precast Garden Beds and greenhouse installation visit wilbertprecast.com/precastgardenbeds.

ULTIMATE DURABILITY

WEED & PEST CONTROL

ACCESSIBILITY

HIGHER YIELDS

LONGER GROWING SEASON

BETTER SOIL DRAINAGE
