## Job Description

---

Wilbert Precast, Inc. is looking for a QC Technician for our Quality Control Team. This position reports to the QC Manager and will be responsible for performing routine tests as required on raw materials, in process components, and final product. The ideal candidate is organized and detailed oriented with an emphasis on quality of work.

The position requires the employee to perform a wide variety of Quality Control functions including, but not limited to the following:

- Perform quality testing of self-consolidated plastic concrete
  - Temperature
  - Air Entrainment
  - Unit Weight/Yield
  - Spread/Visual Stability Index
- Prepare test cylinders for compressive strength testing
- Perform testing for compressive strength
- Perform testing on aggregate (Moisture)
- Perform daily pre-pour and post-pour inspections
- Other duties as assigned

### Requirements:

- High School Diploma
- Experience in a construction setting
- May be required to pass ACI (American Concrete Institute) Testing / maintain certification
- Existing ACI/PQS (Production & Quality School) / PCI (Precast Concrete Institute) certifications preferred
- Experience in Quality Control
- Ability to understand units of measurement and translate to production
- Ability to read and interpret production drawings
- Understanding of reinforcement and lifting inserts
- Basic computer skills
- Ability to problem solve and organize
- Strong communications skills in a team environment
- Good math skills
