## Job Description

---

Lead a small team for the process of manufacturing rebar for precast concrete products. Daily tasks would include reading drawings, making take-offs, bending, and cutting rebar per drawings. The right candidates are self-motivated, independent workers who also excel in a team environment with an eye on leadership.

### Responsibilities:

- Read and understand the Production Schedule including piece drawings
- Be able to make small welds and tacks
- Adhere to production time frames
- Strict adherence to safety rules and restrictions
- Maintain a high standard of housekeeping

### Skills Needed:

- Ability to read a tape measure to 1/16"
- Ability to use rebar rod chomper
- Proficiency in hand and power tools
- Basic understanding of Personal Protective Equipment (PPE)
- Ability to use heavy equipment (e.g., overhead cranes)
- Ability to train employees on proper techniques
- Order rebar and other supplies to keep the facility stocked
- Safety mindset

## Qualifications:

- Work Experience: 2 years plus
- Team player
- Ability to handle physical workload
  - Lift up to 60lbs
  - Extended duration on foot (up to 8 hours)
  - Repetitive use of hand tools and/or power tools
