PRECAST STEPS OVERVIEW

Precast steps are not only functional but attractive. Architecturally designed for appearance and strength, they can enhance even the finest residential structures. Precast steps are less costly than poured-in-place product and comparable in price to wood steps.

Steps are made of high density concrete, reinforced with wire mesh and rebar. Our custom made, high quality hand railings are easily attached to precast steps.

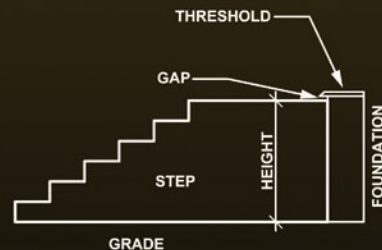

PRECAST STEPS DETAILS

✓ AVAILABLE OPTIONS

- 1 to 6 Risers
- Available with or without platform
- Black Wrought-Iron Railings (powder coating on request)
- Side Entry available upon request

✓ MEASURING

1. Measure overall height from grade to bottom of threshold.
2. Determine number of risers from chart on back page.
3. Allow minimum gap between platform and threshold.
 - A. 1/2" maximum for disabilities.
 - B. 1" maximum is standard.
